BRICKCESSORIES

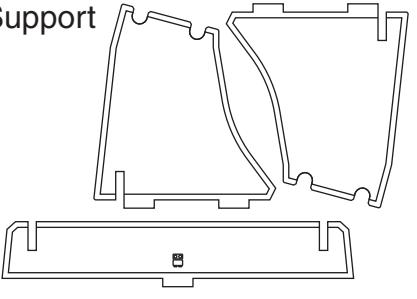

Display Stand Assembly Instructions

Thank you for purchasing an official Brickcessories display stand! Please see our tips on the reverse side for more information on getting the best results from our product.

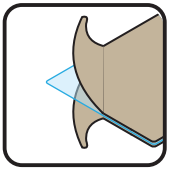

Our LDS001 stand includes the following pieces:

1x Base, 2x Stalk, 1x Cross Support

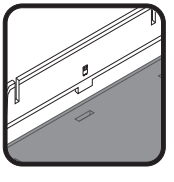

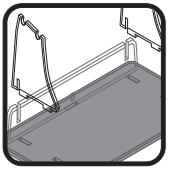

WARNING: Be careful around the edges of the acrylic as they may be sharp.

1. Peel protective layer off acrylic pieces before assembly.

2. Insert the cross support into the base plate.

3. Place the stalks into the base plate.

Assembly and Usage Tips

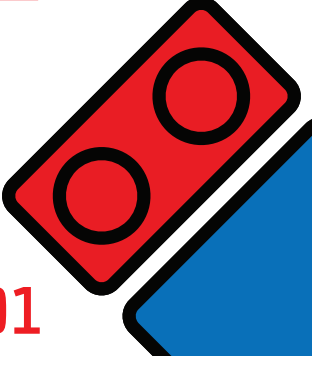

Gluing
WARNING: IMPROPER USE OF GLUE MAY DAMAGE THE ACRYLIC.
Glue is not required for assembly of our stand. But if you'd like a more permanent, stronger stand, you may use glue.
We recommend an acrylic bonding cement, designed for gluing acrylic. Please follow the instructions associated with the product.
While it is possible to use super glue (Methyl 2-Cyanoacrylate) it can discolor and damage the acrylic if not used carefully.

Dusting and cleaning your stand
Use a clean microfiber cloth to gently remove dust or fingerprints from your stand. Do not use paper towels as they may scratch the surface. Most household cleaners may harm the finish. Be sure that any cleaner used is safe for acrylics and test first on the underside of a base piece.

Need further assistance?
If you need help with your kit, order, or general questions, please contact us at **contact@brickcessories.com**.

Thank you again for your purchase.
We look forward to seeing your kits on display.
